The Ventis™ Slide-on Pump is ideally suited for operators who wear their gas monitors for personal protection but occasionally require a pump for confined space entries. Available in black or safety orange and powered by its own battery pack, the slide-on pump is compatible with the Ventis™ MX4 and Ventis™ Pro Series Multi-Gas Monitors.

- **Convenient sampling** – Sample draw distance of up to 50 feet provides convenient sampling in a wide range of applications
- **Easy to attach** – No tools are required to attach or remove the Ventis Slide-on Pump to or from the monitor
- **Uses same battery packs and chargers as Ventis** – Monitor and pump each use the same battery packs, and can easily be exchanged between instruments
- **Flexible battery options** – Three available battery options make this pump extremely flexible in the field

*All specifications are based on a typical instrument and typical performance of the instrument, and are subject to variability.
