

■ Model AP-20 Sampling Pump

- Ergonomically designed. Soft contoured grip prevents slipping. Easy to pull handle. Antibacterial material for Hygiene purpose.
- Sample Finish Indicator pops up when sampling is completed. The skeleton cover makes it easy to see.
- Ends of detector tubes cut with the ceramic tip cutter easily and safely. A cover on the tip cutter prevents the scattering of glass shards until it is convenient to discard them.
- No power source is required making it truly portable for all applications.
- Rugged construction for even the harshest of environments.
- Patents and Certificates:
 - ISO 9001 Certified
 - SEI Certified ANSI/ISEA 102-1990 (R2003) (Safety Equipment Institute)
 - United States Design Patent No. US D467, 334 S
 - Certificate of Design Registration in Japan No.1131898
 - Certificate in Conformity with DIN EN 1231 by BIA in Germany
