Simply unique

- Simplicity: user-friendly interface and ease of use
- High performance: advanced noise measurement functions
- Innovation: wireless three-axis vibration signal recording
- Connectivity: Wi-Fi/3G access through an intuitive Web interface
- Metrological: compliant with Class 1 according to IEC 61672-1 (0/90°)

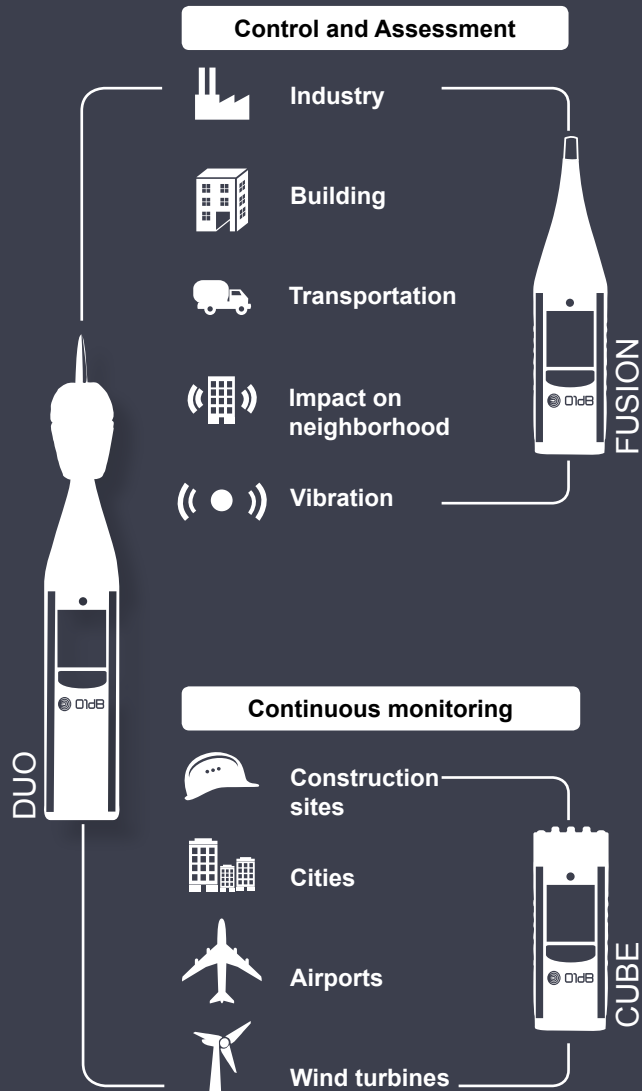

Sound level meter + Monitoring station

- All-in-one: FUSION and CUBE in a single instrument
- Weatherproof: suitable for outdoor use in all conditions
- Battery lifetime: more than 60 hours of continuous operation
- Practical: remote listen-in of the recorded signal
- Metrological: compliant with Class 1 according to IEC 61672-1 (0/90°)

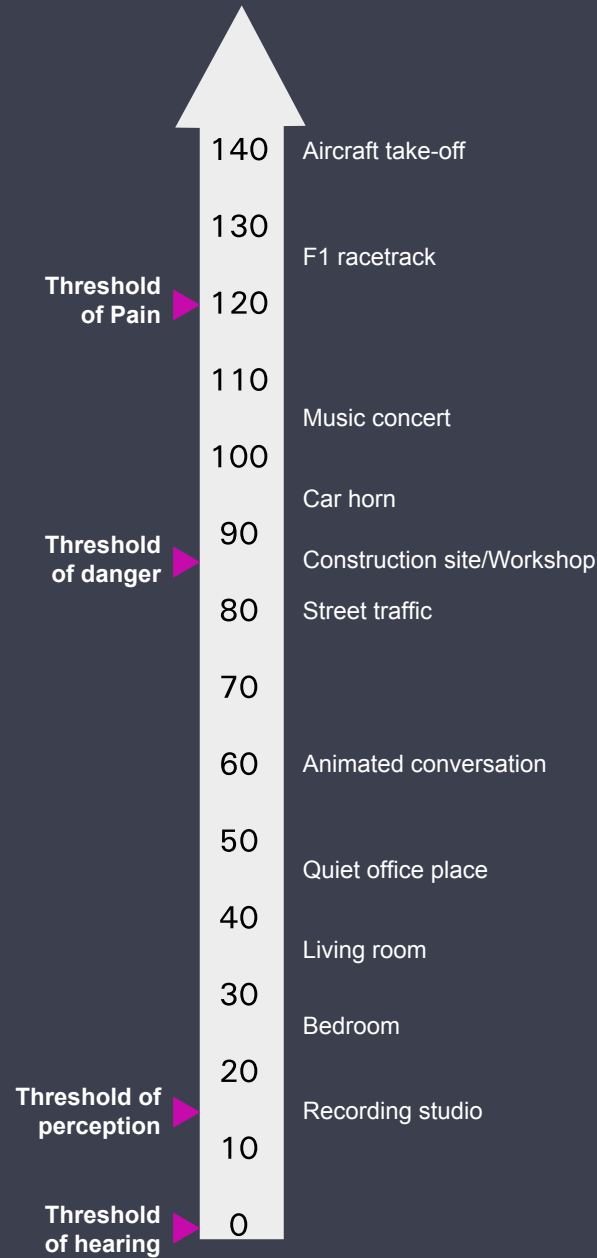

Designed for monitoring

- Multi-purpose: simplified integration within a cabinet or a case
- Handy: external antennas (3G, Wi-Fi, GPS)
- Smart: advanced triggers and indicators
- Efficient: data transmission in push mode
- Metrological: compliant with Class 1 according to IEC 61672-1 (0/90°)

A product range to meet all your needs

NOISE SCALE

Specifications subject to change without notice. June 2017

01dB offers you daily support in the prevention of noise and vibration pollution.

01dB invents an acoustic & vibration measurement ecosystem

One product range
Three instruments
Dozens of applications
