

HONDA RENEGADE PORTABLE PETROL COMPRESSOR

Product Information

Ideal for on-site work, this compact and portable compressor is powered by a genuine Honda 160cc four stroke engine and produces a very useable 170 Litres per Minute Free Air Delivery.

This compressor is designed to have clever fold down handles plus solid rubber tyres to handle the toughest of worksites.

Fitted with a 20 litre tank, professional quality regulator with two 'Nitto' style outlets, pressure gauges for tank and outlet pressures this mobile compressor is absolutely ready for work.

The Honda Renegade Petrol Compressor is available at Air-Met Scientific for sale and rental.
