

Introducing the Revolutionary

QuantiFit2[™]

Removing the Limits of
Respirator Fit Testing

The OHD QuantiFit2 is a highly specialized instrument that utilizes OHD's scientifically proven and patented Controlled Negative Pressure (CNP) technology to directly measure respirator leakage. This innovative technology performs the fastest, easiest, and most precise respirator fit test available, ensuring the best protection and fit for you and your employees.

Take your fit testing to new places, even outside.

QuantiFit2 battery packs allow for cordless operation, animations guide the user through each exercise, and AutoStart allows for touchless testing.

Break free from traditional fit testing restraints.

Key Features:

- No Consumables (Probes, Alcohol, Wicks, etc.)
- Fastest setup and fit test time (2 minute fit test)
- AutoStart Functionality
- Battery Power (Optional)
- Test Countless Individuals Simultaneously
- Interactive Troubleshooting
- Color Touch Screen Display
- Lifetime Powertrain Warranty (see additional details)
- *Recognized Globally (OSHA, CSA, HSE, ISO, NFPA)*

See your fit testing from a
different perspective.
